

Kylie & Lee

Total Wedding Cost £8,211.60
(only £130.34 per guest)

63 Guests

Sole Use of Manor House including Conservatory, all public areas and Manor Suite.

Photography: £880 - Alan Michael Usher

Unfortunately, the rain on the wedding day changed all of our plans for photos outside at the last minute but our photographer was very professional and was able to capture some beautiful photos inside and around the hotel that we were very happy with. He has been very easy to communicate with prior to the wedding, and had all of our guests laughing throughout the day. He was also able to get some lovely photos during the ceremony without being too much in the way of our guests, which is something that we really appreciated.

Flowers: £879- Swaffham and Fakenham florist

Out of all the florists we met with, Michelle from Swaffham Florist was the most helpful and friendly right from the start. She was happy to do anything we asked for and it was lovely being able to pick out which flowers we wanted. She was very helpful and communicated well throughout the whole process and we couldn't be happier with how our flowers turned out on the day. The level of detail and effort which she put in to making our floral arrangements look perfect is something we are very grateful for. We would definitely recommend this florist.

Décor: £294 - Serendipity Wedding Hire (Bev)

Bev was so helpful and was happy to do anything we asked her, even though it was short notice. We were really able to put the finishing touches on the day thanks to Bev. If we had of found her sooner, we would have hired so much more than we did. She was able to add small details such as our names on the post box and flower garlands around the signs that made all the difference. We were very impressed with the 'Mr & Mrs's sign and the doughnut stand which we hired from her for a very reasonable price, and everyone complimented us on them. We couldn't be more grateful to Bev as she did an amazing job and was such a lovely person.

Cake: £320 with a £60 delivery charge- Sassa's Bespoke Cakes

We chose Sassa's as they offered a wide selection of cakes with incredible designs. We decided on the silver birch tree design and everyone was so surprised how real it looked, the effort that had gone into making and designing the cake was obvious to see. They were able to make a cake that catered to soya allergies without compromising on the taste, which was

something very important to us. They offered a selection of flavours, we chose salted caramel for our top tier and red velvet for the bottom and there was no complaints at all. Our guests said it was the nicest cake they've ever had.

Disco: £250 -Steven Reed

Steven's set up was perfect for Heacham Manor and he provided great evening entertainment. All of the guests loved him and he was very easy to talk to, both before and during the wedding. He arrived at the hotel to start setting up at 5:30pm ready for the reception to start at 7pm, and he stayed through until midnight. We would definitely recommend him as a brilliant DJ for a reasonable price.

Suits: Groom's suit £130- hired from Goddard's

Good quality suit, very good service and overall would recommend.

Dress: Designer is 'Allure Bridal'

Doughnuts: £140- Krispy Kreme

Hair and makeup: £175 for myself and mother of the bride- Fallon and Caroline from Salon 63

Hair was done by Caroline and I was very impressed. I have very long thick hair so it is often hard to style but Caroline was able to find a style that worked well, lasted all day and looked beautiful. Fallon did a very natural look with my make up as I am not used to wearing much on a daily basis. She was very gentle applying the makeup and didn't do anything I wasn't comfortable with. The make-up lasted all day and was just what I had wanted. Both are very talented, kind and were easy to talk to.
